

Team 11: Black Box Test Log

Pedro Del Moral Lopez, Sam Fellers, Ben Huemann, Michael Pike, Kaiwen Wei

No.	Defect Description	Severity	Test case no OR Desc.
1	Cannot register with facebook account	Critical	1,2,3
2	Cannot register google account	Critical	6
3	Cannot login with google account	Critical	6
4	Settings tab does not work, cannot change password	Important	15, 16, 17, 18
5	Gives the message "please enter an email" instead of invalid credentials when entering a non-existent account	Workaround	14
6	Can change username without entering a valid password. Alert shows the invalid password, but the username still changes	Important	20
7	Leaderboard is upside down, shows the worst scores at the top and the highest at the bottom. Bug persists from public to friends leaderboards.	Important	28,29
8	Quiz is disabled after taking it. (can't retake)	Critical	26

9	You can friend yourself, but can't unfriend yourself, after deleting all friends you have a friend count of 1. Closing and reopening profile tab fixes.	Workaround	No user stories for adding or removing friends
10	Entering bad password into change password form returns "passwords do not match" even though there is only one password	Workaround	33
11	The pop up notice " Please enter the question text" doesn't disappear properly.	Workaround	24
12	Intermittent crashing when attempting to view history	Important	29, 30
13	When creating a quiz you have to fill out all fields before you can hit done, then that question is not submitted.	Critical	"As a user, I would like to create my own set of quizzes in the form of flashcards"
14	After editing description in profile edit the back arrow takes you back to editing profile input page.	Workaround	33
15	Point on user profile is null/null when the user has 0 points.	Workaround	33
16	Quizzes show a red check mark for wrong answers and correct answers alike	Important	38, 39
17	Quizzes all have the same picture, aren't given the option to give a different picture or change the quizzes picture. Must be done by manually manipulating database.	Workaround	General
18	In add friends tab, checking/unchecking randomly unchecks all checkboxes	Workaround	40, 41
19	Admins cannot create topics, instead you always get the message "Topics already exist in firebase"	Important	45, 46
20	In profile view points show null/null when you have 0 points	Workaround	33
21	Attempting to take various quizzes consistently causes crash	Critical	32

22	Changing description and username caused app to crash infrequently	Critical	33
23	There is no study tab	Important	36, 37
24	No way to get to friends profile, clicking on friends doesn't do anything	Important	43
25	Can still log in after admin deletes account	Workaround	52
26	Enter text into search bar of the delete users view so that there are multiple users in the search results, delete one of them. After deletion, the search bar will still contain the original text but search results will be as though no text was entered	Workaround	52
27	Cannot create new account with same email as deleted account	Workaround	53
28	Cannot add new quizzes to library as admin, clicking "generate quizzes" from admin view displays error that a random topic is full	Important	54
29	User created quiz does not show last question	Important	22
30	No option to send quiz to friends on quiz completion, cannot challenge friends	Workaround	40
31	Allow user to create quiz with no question (enter information on the first question then click on done).	Important	22, 23
32	Allow user to create a quiz without quiz name (done by hitting create quiz then backing out)	Important	22
33	Admins can't see any more details in the leaderboard than normal users can	Important	47, 48
34	Click on back multiple times to navigate back to the sign-in menu. When the app is opened again the user is already signed in	Workaround	General
35	You can add friends by clicking nameplate rather than checkboxes, only the previously selected user is actually selected, but the checkbox on the user is unchanged regardless	Workaround	40

36	Upon deleting a friend on your profile, the counter does not automatically decrease after deleting just 1 friend. Exiting and reloading the profile page corrects this	Workaround	44
37	There is no apparent 'performance' tab in the application, and no instructions on how to access it in project documentation	Important	34, 35
38	In the admin tab and delete quizzes menu, there is a null quiz entry. When deleted, it backs out to admin tab (Different procedure when deleting real quizzes)	Workaround	
39	Create quiz tab will randomly have duplicate quiz categories	Workaround	22, 23, 24
40	Allow user to create a test without a difficulty	Important	22
41	Go to new quiz and enter name, press 'begin' and return to main menu with back button. New quiz will appear in quiz listing without having actually been submitted	Important	22, 49
42	History for deleted quizzes still remain	Important	General
43	When taking quizzes, wrong answers are off by 1 (Question 2 wrong answer is displayed as #1)	Critical	38, 39
44	No option to challenge other user	Important	40, 41, 42
